OEM PARTS CONVERSION

At the Abbey Group we understand that downtime is not good for any business. That's why we are dedicated to providing a full range of high-quality OEM spares.

The Abbey Group technical team will evaluate products purchased from the original equipment manufacturers (OEM) and will manufacture or service parts, massively reducing lead times and costs.

WHY CHOOSE THE ABBHEY GROUP?

- ✓ Reverse engineer parts from samples or drawings.
- ✓ Reduce downtime.
- ✓ Improved design if necessary.
- ✓ Reduced lead time.
- ✓ Reduced cost.
- ✓ Increased productivity.
- ✓ We are not a distributor therefore never encourage you to purchase more than you need, at higher prices than absolutely necessary or our own brand products.

REVERSE ENGINEERING

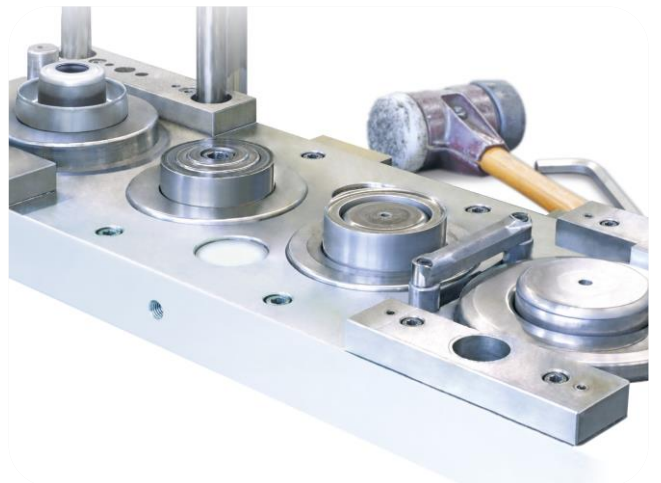

We serve businesses across all industry sectors and work to your unique requirements, whether it's a simple component or a complex piece of engineering equipment that needs analysis.

The benefits of reverse engineering are many and our findings can help you determine future production techniques and material selection as well as reduce research and development.

By partnering with The Abbey Group, our reverse engineering services in manufacturing and engineering can help improve both your product and competitive edge in the market.

THE BENEFITS OF REVERSE ENGINEERING.

- ✓ **Exploring existing designs & manoeuvres.**
- ✓ **Reconstructing a product that is outdated.**
- ✓ **Discovering any product vulnerabilities.**
- ✓ **Bringing less expensive & more efficient product to the market.**
- ✓ **Inspiring creative minds with old ideas.**
